PRICE 5 CENTS.

## FINAL TRICKS IN MANOA PRECINCT FIGHT FIGURES SHOW NEW TARIFF SUCCESS

### Shriners Want One Whole Ship

Sunny Jim Would Bring One Hundred and Fifty On Wilhelmina In February

Sunny Jim McCandless, backed by one hundred and fifty Shriners, wants to charter the steamship Wilhelmina for the February trip and make the tour from San Francisco to Honolulu, Hilo and return.

Castle & Cooke, the local agents of the Matson line, received a cablegram yesterday in which the definite request is made, and the local representatives have been testing public opinion on the subject.

### CAPTAIN BERGER WANTS TO COMPLETE HIS FORTY YEARS AS BANDMASTER

"I want to complete my forty years of service as bandmaster of the Hawaiian band. My forty years will be up on June 1st, 1912. When that time has reached I am ready to retire. I want to quit of my own accord and not be forced out."

This is what Captain Berger had to say when he was asked if he was willing to accept a pension from the Board of Supervisors and retire from the leadership of the Hawaiian band.

Berger sets June 1st, 1912 as the date upon which he will be ready to give up the baton that he has held

### SALE OF U. S. TRANSPORT THOMAS TO COAST OIL FIRM IS NOW RUMORED

Immediately upon the docking of the United States Army transport, Sherman this morning at the naval dock, it was reported that Uncle Sam had disposed of one of his gigantic troopships. The report is credited by some and discredited by others.

The big troopship referred to in the U. S. Army transport Thomas. According to the officers of the Sherman, the Thomas has been sold to a San Francisco oil syndicate.

"I heard that the transport Thomas was sold to a San Francisco oil syndicate," said Captain Lyman of the Sherman, when interviewed this morning. "It is the intention of the purchaser," continued the general captain, "to use her as an oil tank. In my opinion, however, this is hardly possible."

The sale of any United States Army transport is practically impossible without a special act of Congress. About five years ago Congress passed an act prohibiting the sale of any troopship unless specifically authorized by Congress.

Captain Lyman, who has had long experience in the Army transport service, does not believe the report of the sale of the Thomas.

### Tariff Gets Greater Income

WASHINGTON, D. C., Sept. 3.—Statistics made public today by the Treasury Department show that the new tariff has been a great success as a producer of revenue. The customs receipts for the first year under the new tariff are seventeen millions of dollars in excess of the best previous year under the Dingley tariff.

### PRAISED TAFT ON HIS TARIFF

SIoux CITY, Sept. 3.—Colonel Roosevelt created a new sensation here today, when he endorsed the tariff commission plan of President Taft. He was addressing a large audience, and with him on the stand were the insurgent leaders Senator Doolittle and Representative Hubbard. Roosevelt endorsed the President's tariff suggestions for a tariff commission, and complimented him on the tariff agreements that have been made with foreign nations. This is one of the points on which the Administration has been vigorously attacked by the insurgents.

### TAFT GOING TO ST. PAUL

BEVERLY, Mass., Sept. 3.—President Taft started today for St. Paul, where he will attend and address the national convention of conservationists to be held there.

### DAILY SCORES OF BIG LEAGUES

(Special Bulletin Cable)  
SAN FRANCISCO, Sept. 3.—The scores in the big leagues' play today are:

American—Washington 3, Philadelphia 1; Detroit 4, Chicago 2; Cleveland 12, St. Louis 4.  
National—Boston 9, Brooklyn 6; Philadelphia 2, New York 4.

Standing of National League, Sept. 2			
Club	W.	L.	Pct.
Chicago	75	34	.688
Pittsburg	64	49	.566
New York	65	49	.570
Cincinnati	58	54	.517
Philadelphia	58	58	.500
Brooklyn	44	67	.396
St. Louis	46	70	.396
Boston	44	77	.363

Standing of American League, Sept. 2			
Club	W.	L.	Pct.
Philadelphia	81	37	.686

New York	69	49	.584
Boston	69	52	.573
Cleveland	51	65	.431
Washington	51	68	.432
Chicago	43	71	.383
St. Louis	40	78	.332

### BURNED AT SEA; SIXTEEN SAVED

BOSTON, Sept. 3.—The steamer West Point has been burned at sea. The ship was abandoned, and the ship's company of sixteen was saved by the steamer Devenian.

### SHERMAN COMES FROM MANILA

Has Slight Mix Up With S. S. Supply At Guam

During a spell of foggy weather, while the United States Army transport Sherman was on her way to Manila, on her last trip, she collided with the United States naval ship Supply in Guam. The collision caused no damage to the big troopship; but the Supply was somewhat scratched and a little other damage sustained.

The collision, according to Captain Lyman of the Sherman, happened on account of a mistake of the engineering department in responding to the telegraph from him, who was on the bridge at the time.

As soon as the two ships collided the engines were stopped and ordered reversed with full speed astern. After struggling with the strong current, the two ships backed away from each other.

An immediate examination of both ships showed that little damage had been done to either.

The transport Sherman, which was expected to arrive at 11 o'clock this forenoon, arrived off port a little before 8 o'clock. She was granted a quick pratique by the local quarantine officials.

The troopship which sailed for San Francisco this afternoon at 2 o'clock docked at the naval wharf at about 5 o'clock where the passengers were landed. For Honolulu she brought five cabin passengers. Captain Robert W. Mearns, U. S. A., 20th Infantry, Captain George H. Estes, U. S. A., 20th Infantry, and his family arrived on the Sherman. They were met at the wharf by their fellow officers.

For San Francisco the Sherman is taking 113 cabin passengers, 58 second cabin and 350 in the stateroom. Of the latter number there were 252 casuals, 28 sick, 11 discharged soldiers, 18 prisoners, 8 naval casuals, 3 sick naval men, 18 casuals of the United States Marine Corps, and 11 ex-employees.

Ever since the collision, which occurred at Guam, the Sherman experienced splendid weather. The sea was smooth and the passengers, who were not seasick, enjoyed the trip immensely.

As soon as the big ship was tied to the naval wharf this morning, orders were given to E. E. Davis, forage master of the Quartermaster's Department to station himself at the end of the gangplank, to prevent the Honolulu people from boarding the ship.

The orders, however, did not effect those who had passes granted them by the local quartermaster's department. Those who did not have passes, were shut out.

### SOUTHERLAND INSPECTING

Rear-Admiral Wm. H. Southerland, U. S. N., chief of the Bureau of Naval Construction, who made a searching inspection of the local naval bases and barracks during his short stay in Honolulu, will leave for Washington, D. C., on the steamship China, which sails at 5 o'clock tomorrow morning.

Since his arrival on the Siberia last week, he, in company with Rear-Admiral Ross, commandant of the naval station, visited and inspected all the barracks on this island. He also spent much time in looking up the construction work at Pearl Harbor with a view to making it one of the most powerful naval stations in the world.

Rear-Admiral Southerland's report regarding the island forts will not be made public until after he has submitted it to the Secretary of the Navy.

### Don't Like Fortifying Scheme

LONDON, Sept. 3.—The Westminster Gazette, in an article commenting on Colonel Roosevelt's address opposing the neutrality of the Panama Canal, says that the proposal made by Roosevelt for America to fortify the canal contemplates the violation of an international agreement.

### UPRISING IS SUPPRESSED

MANILA, Sept. 3.—The uprising of Filipinos in the province of Nueva, Island of Visaya, has been suppressed. Mando, the leader of the rebellion, has been captured.

### PHILADELPHIA POPULATION

WASHINGTON, D. C., Sept. 3.—The Census Bureau today announced the population of Philadelphia, as shown by the census just taken, to be 1,549,008. The population in 1900 was 1,293,697.

### M'BRYDE WILL DEFEND KOREAN

Choy Yong Jo, the Korean who was stabbed by Lee Song In, is in a bad way and at 1 o'clock today was given very little chance of life. The wound in the man's stomach was a ghastly one, and it would be a miracle if he survived it.

The man who did the stabbing is in a cell at the police station and he expresses no contrition for his crime. In fact he wishes that his victim would die and then his hate would be appeased.

Claudius McBryde is said to have been retained by friends of the would-be murderer, for the defense. He, this morning, wished to interview the prisoner but was not allowed to do so. McBryde is now talking of instituting habeas corpus proceedings and forcing the police to allow him to see the Korean.

No charge has, so far, been laid against Lee Song In, but as soon as it is seen whether the injured man will die or not, a formal charge will be entered. It is now reported that Choy Yong Jo has a police record as a hawker and that he was known as "the embezzler" among Japanese of the big island.

### STATEMENT ON ASSAULT

We, the undersigned, Koreans who were present when one C. H. Yong attempted to assault Ha Il Chong at the Korean Club, hereby state that we did not, nor did any other Koreans, assault said Yong, and the said Yong was only struck by the said Ha Il Chong in self defense and was not assaulted at all.

The case of the child in question is now in court and in charge of the lawyers, and Mr. Yong attacked Mr. Ha Il Chong first because he would not turn over the child to him with out an order of the court, said Yong claiming falsely that he was the father of the child although he is married to another Korean woman.

CHO PYUNG YU,  
YAU HAN YOUNG,  
KANG YIK SOON,  
KIM YOUNG WAN.

Just because a woman is strong is no sign, of course, that she is wrapped up in herself.—Herald News.  
The price of each share is now set in the blue book on the discussion is to be called bid at 10.

### Primaries Open This Afternoon

Andrews Roll Found To Contain Improper Registrations More Trickery

At 2 o'clock this afternoon the polling places of the Republican precinct clubs opened for the election of delegates to the Territorial and County Conventions, the interest of the public centering in the Manoa precinct, where the insurgent wing is out to elect their states and end the Andrews-Buffandeau domination of the precinct.

There are contests in other precincts of the Fourth and Fifth Districts but none that approaches that of the Manoa precinct in importance or where the insurgent fight has been waged more consistently.

It was discovered this morning that official ballots of the Manoa precinct were being distributed although the rules of the Republican party intend that the official ballots shall be under seal until delivered over to the judges of election. A few of the ballots found their way into the hands of the insurgents and it is believed to be another evidence of the tricky methods resorted to by the programers.

The insurgent organization, to assure fairness at the polls, was perfected and the machinery put in motion this morning and nothing will be left undone to carry out the plans in this regard.

"Win or lose," said F. E. Steere this morning, "we have nothing to explain or regret in this fight. We have contended for decent politics on the merits of the question involved. We expect to win and all that we want now is a fair chance to have the actual work of the Republicans of the precinct find expression in the votes cast this afternoon."

The insurgents were busy this morning in making the final arrangements selecting watchers for the polls and preparing generally to challenge the repeaters that are believed to be upon the roll a copy of which was turned over to the insurgents by Secretary Buffandeau.

As a result of the investigation that was instituted into the rolls it has been proven absolutely that there are a number registered who are not residents of the precinct and if they have the presumption to appear at the polls this afternoon they will be promptly challenged by the watchers of the insurgents. A few dead men are also registered and the roll book shows further evidence of the activity of the Andrews-Buffandeau work.

The action of the County Committee in throwing the J. C. Cohen's Kaakaoka protest out of court eliminates a contest that would probably have furnished some excitement although it developed at the hearing that the only person actually holding a grievance was Cohen himself.

The polls opened at 2 o'clock this afternoon and will close at 7 o'clock. In the Manoa fight it is believed that the circular letter which was sent out yesterday has had a beneficial effect, declaring in plain language the causes of the opposition to Andrews and giving in extenso the actual occurrences and incidents that have led to the charges of fraud and crookedness.

Henry Whitfield, the architect of the Library of Hawaii, will soon be here to look over the site for the building on King street adjoining the Capitol. Whitfield, whose offices are in New York City, was in consultation with H. L. Kerr when the latter was East recently and at that time stated that he expected to be in Honolulu during the latter part of September.

Kerr will be the supervising architect of the new library building and the general plans for the new structure will be gone over thoroughly with Government officials and the supervising architect while Whitfield is here.

Mr. Kerr states that Honolulu will undoubtedly possess a library structure of the highest architectural and practical effectiveness, Whitfield being known for a combination of these two elements in public buildings that he has designed.

The new building will be designed with a view for providing ample room for future growth and will contain the most modern appliances and fixtures for the convenience of the patron and library staff.

### SUPREME COURT TO DECIDE IMPORTANT QUESTION ON REVENUE OF PUBLIC LANDS

"I have asked an opinion of the Supreme Court on the question as to whether the income derived from sale and lease of public lands can be used for surveys and opening up other lands," said Superintendent of Public Works Campbell.

The question arose over a section of the Amended Drainage Act on this point involving in the act of Congress providing for association in which special land laws were to be provided for Hawaii.

In speaking of the need of this question, which amounts to \$100,000 annually, Superintendent Campbell stated that there were large quantities of valuable land suitable for agricultural purposes which at the present time could not be approached.

Surveys by roads and road building is necessary to open up these lands so that they will be available for settlers and with the amount derived from lands annually expended in this manner it will be possible to open up large tracts which have been heretofore inaccessible.

The matter is to be submitted to Attorney General Lindsay with a request for his opinion of the constitutionality of the proposed law in regard to the construction of the
